

Mobile App Testing Report

29 Nov 2024

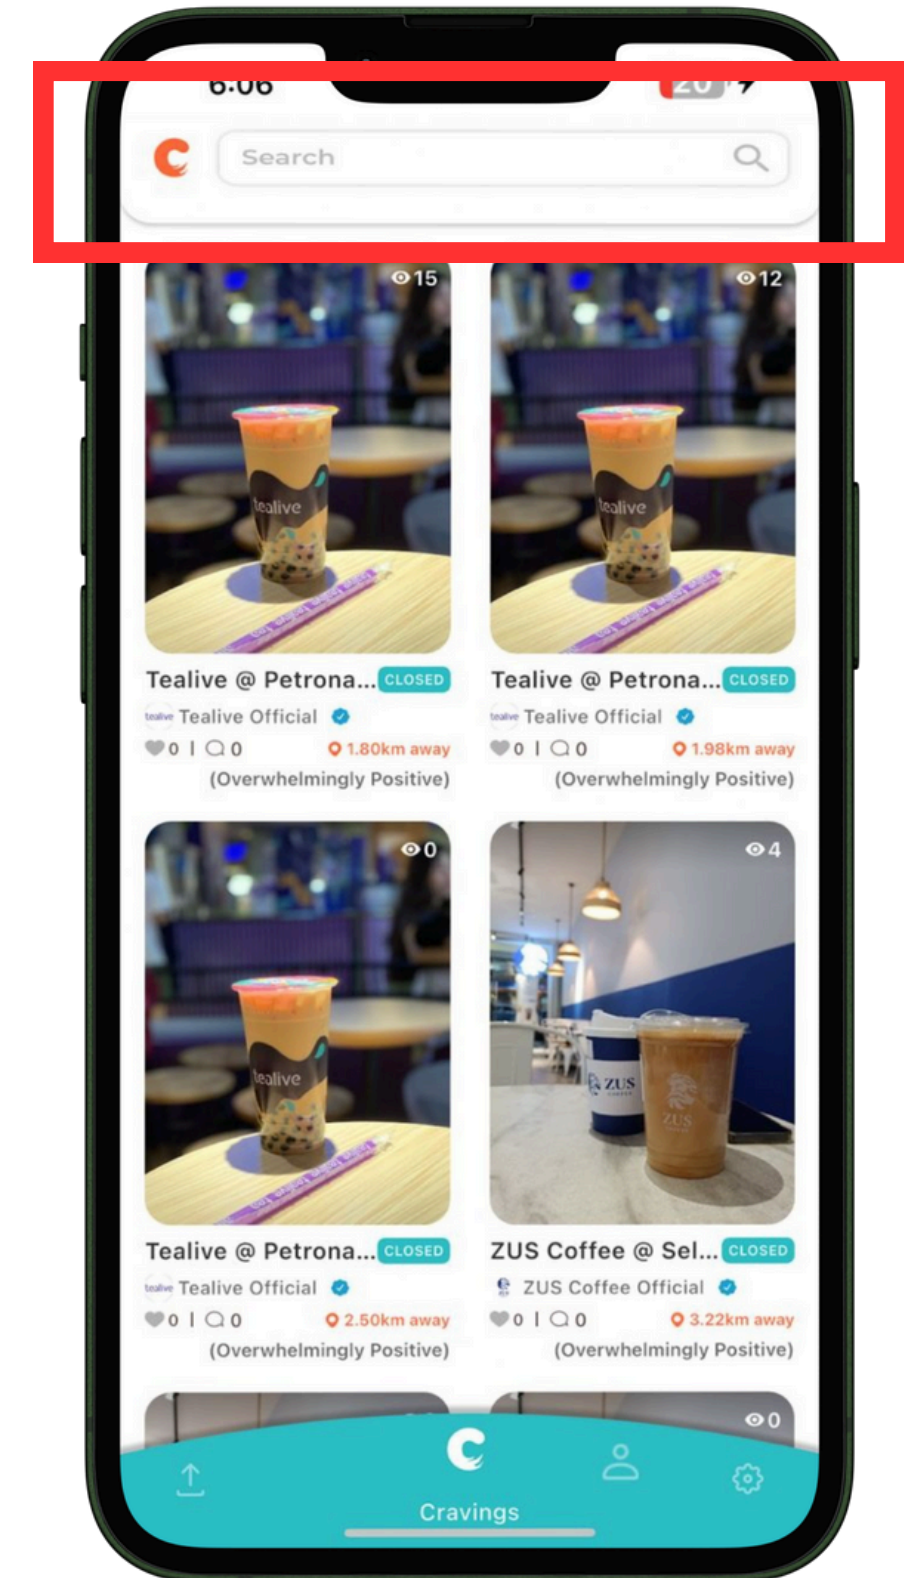

Table of Contents

- **Home Page**
- **Carousel**
- **Search Bar**
- **Posting**

Home Page

Home Page

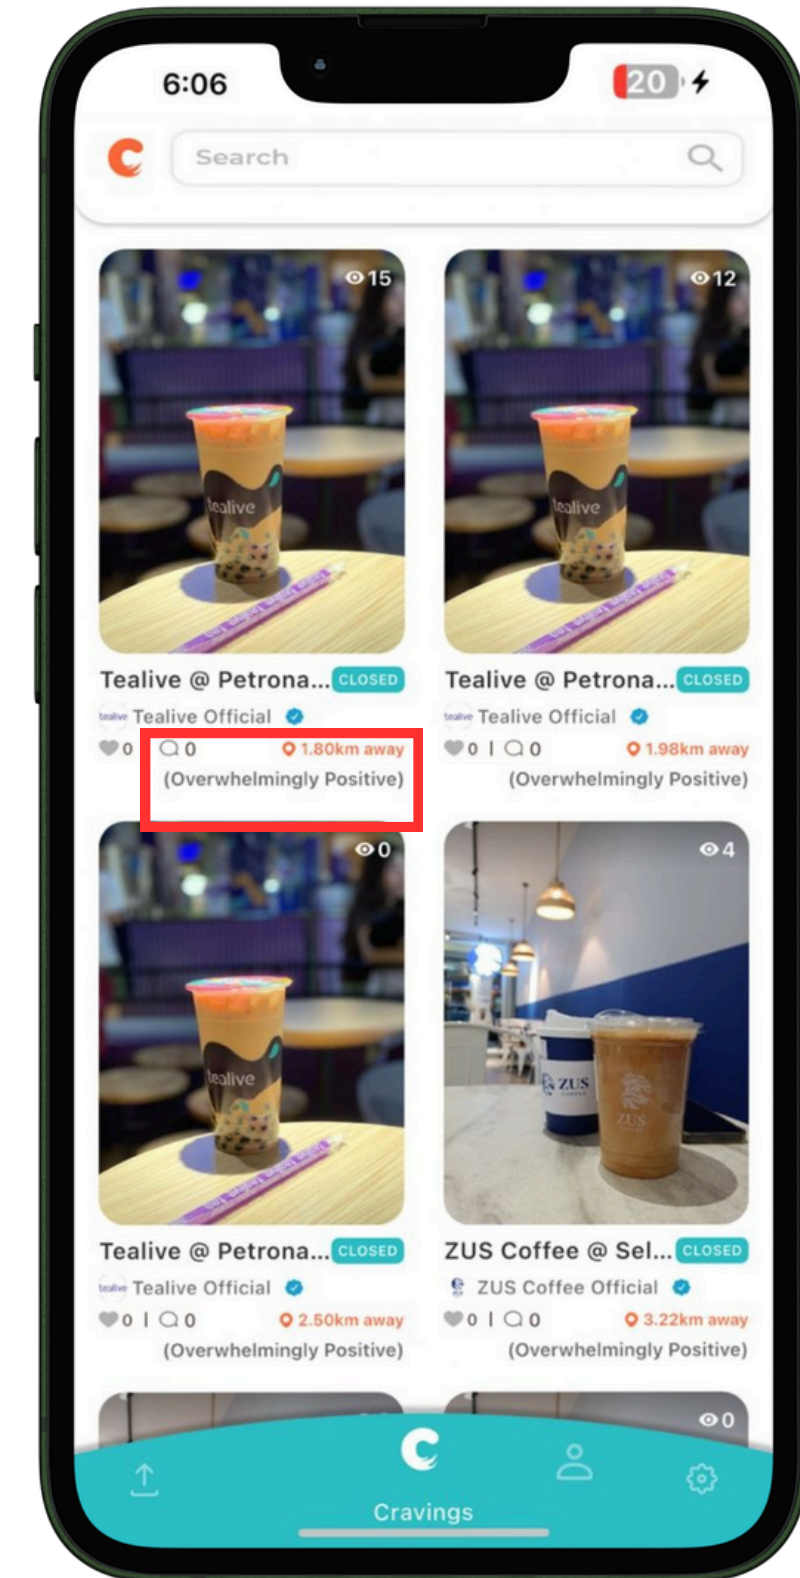

- Search bar is an image and when clicked the actual search bar pops up - the desired behaviour should be that the search bar is static at the top and the search list pops up

Live App

Home Page

- The review system should display differently based on a post's comments.
 - Eg: +50 = Overwhelmingly positive.
 - -50 = Overwhelmingly negative.

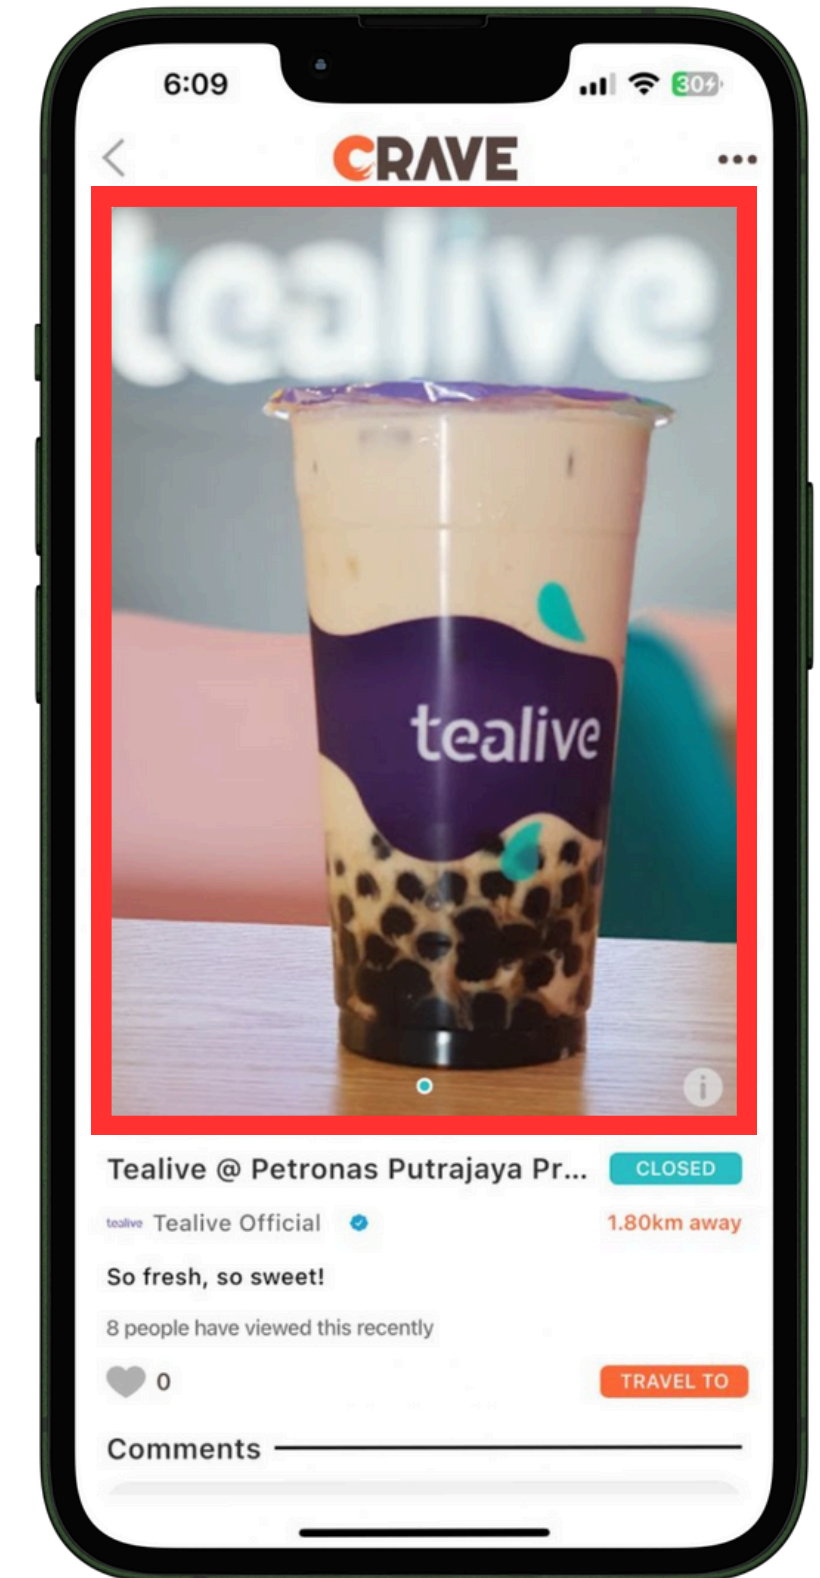

Live App

Carousel

Carousel

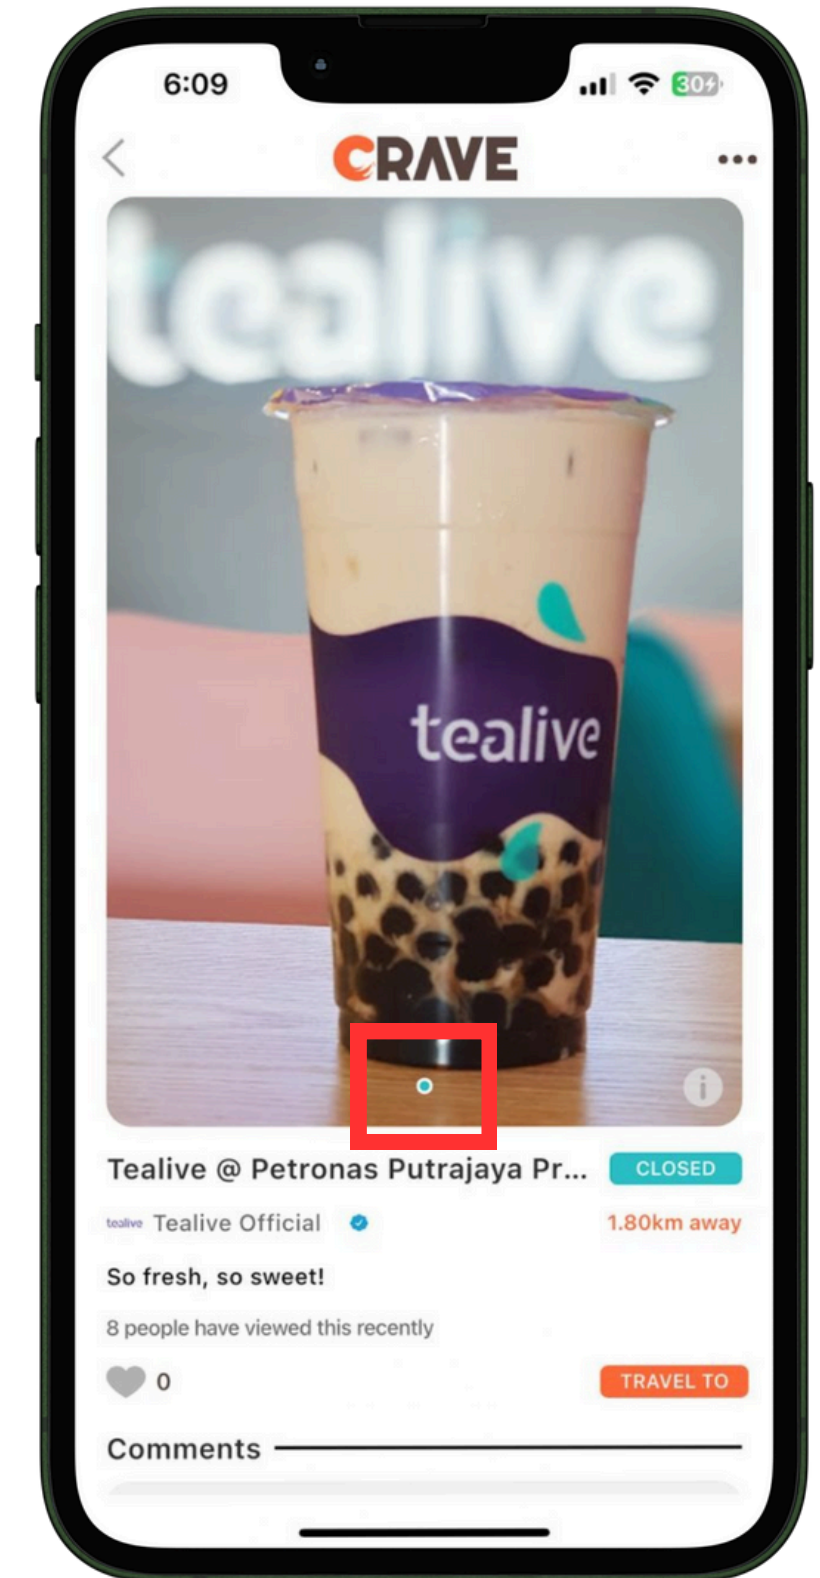

- When swiping to view other photos, the only the photo section will be able to swipe left and not the whole post.

Live App

Carousel

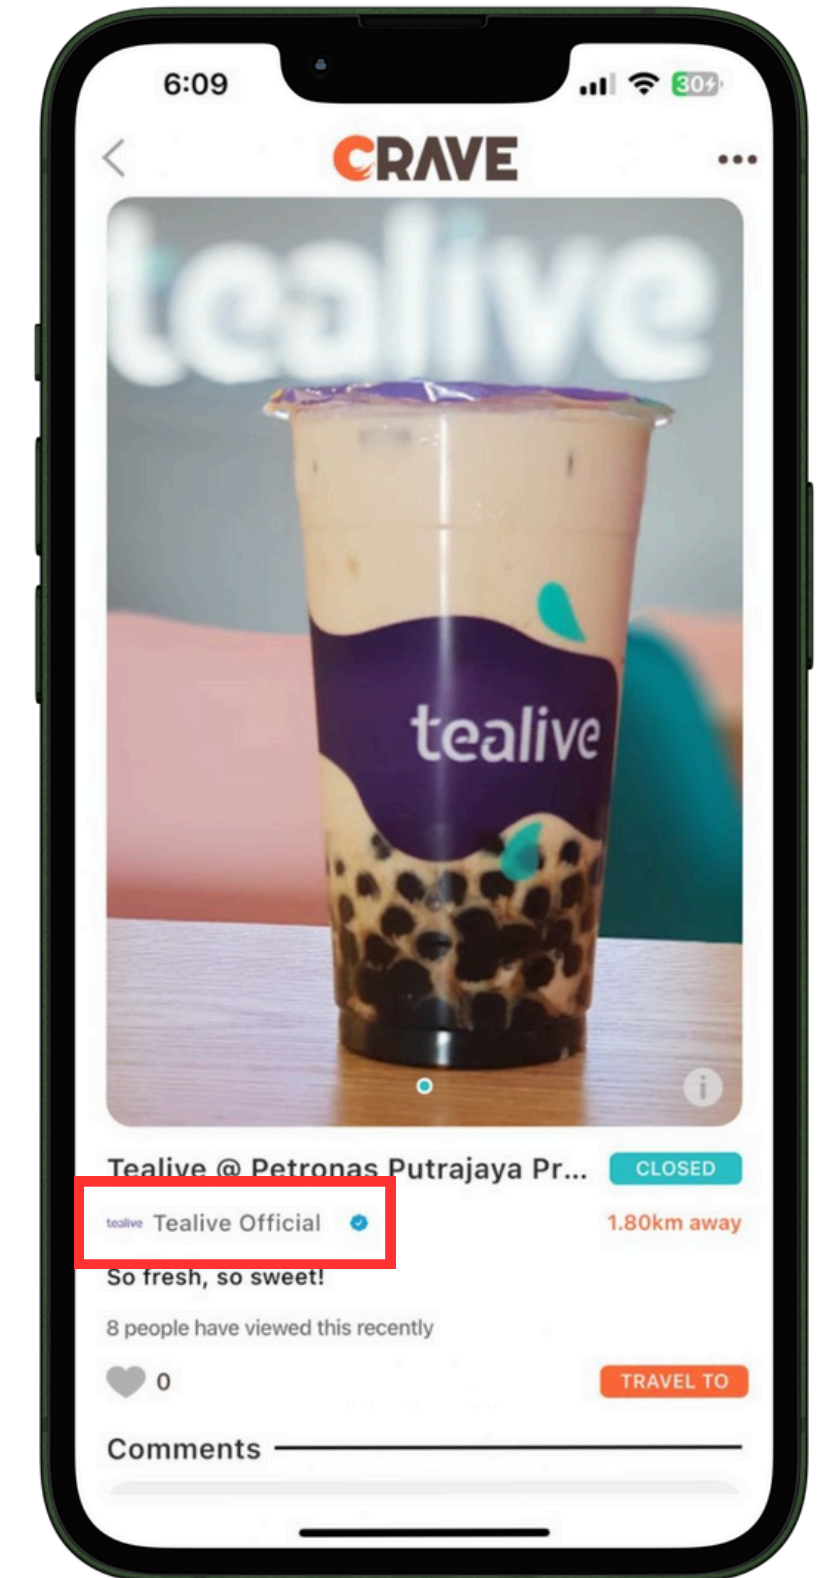

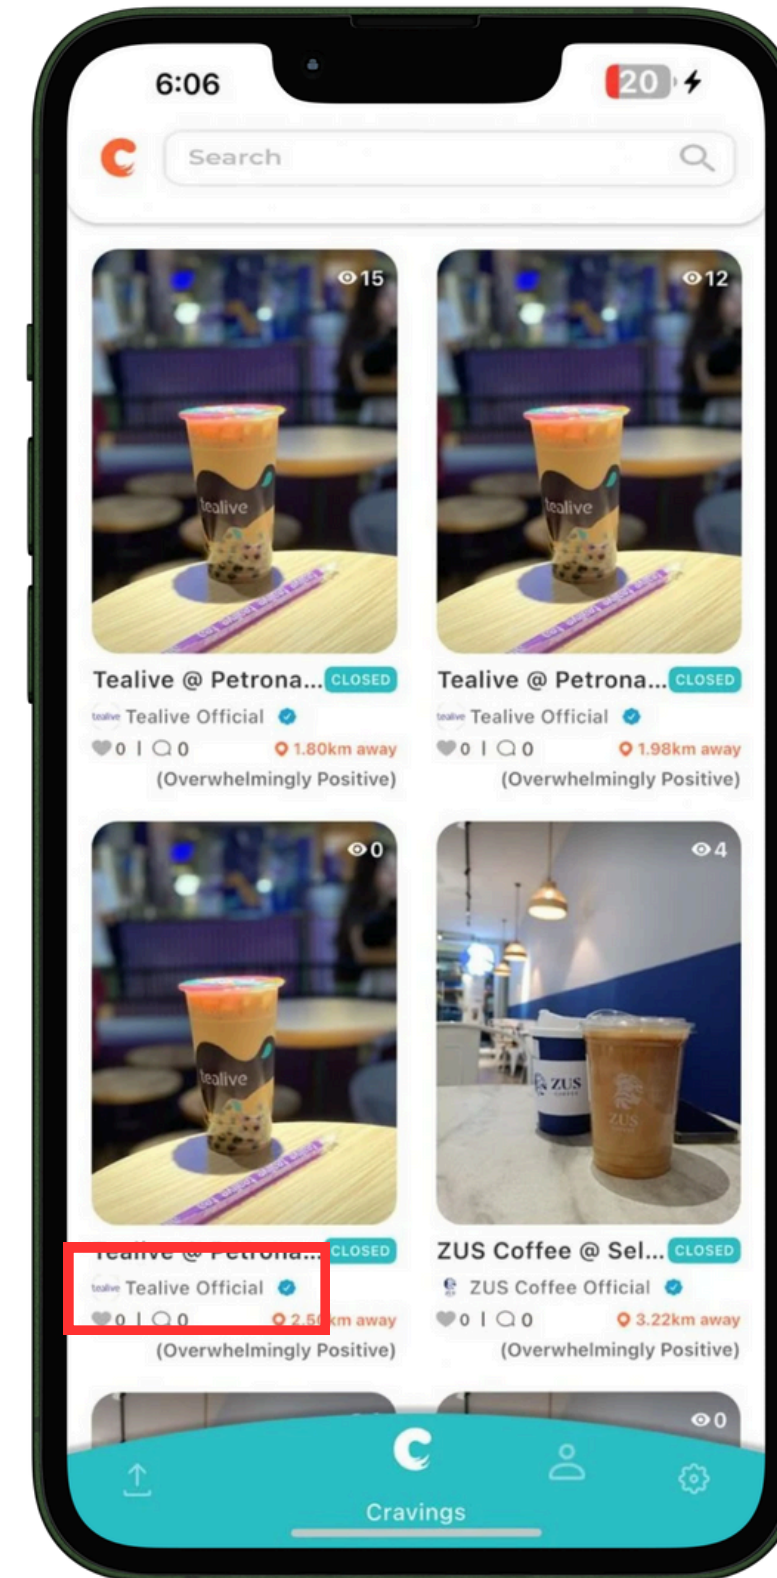

- The carousel-indicators should consist of the number of photos available for that post. (eg: If there are 3 photos for the specific post, that means that there will be 3 dots (carousel-indicators)).

Live App

Carousel

- The restaurant/cafe name has a gap between it and the badge.

Search Bar

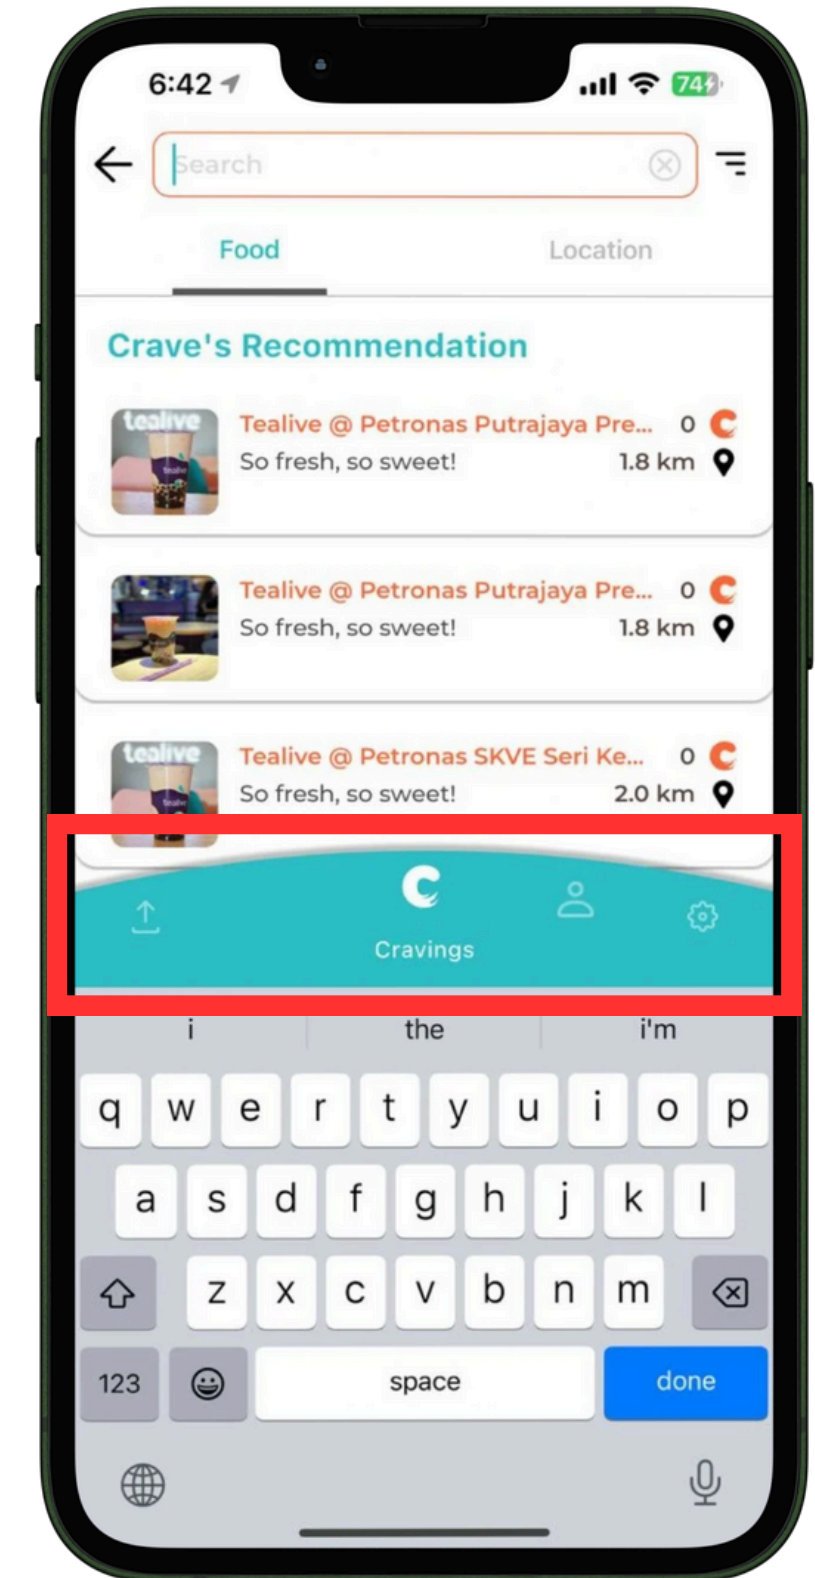

Search Bar

- When opening a carousel, it will direct the user to the home page if the background (transparent black area) is pressed.
- It is difficult to close the pop-up (i.e. not responsive) when user tries to close it after being directed to the home page.

Search Bar

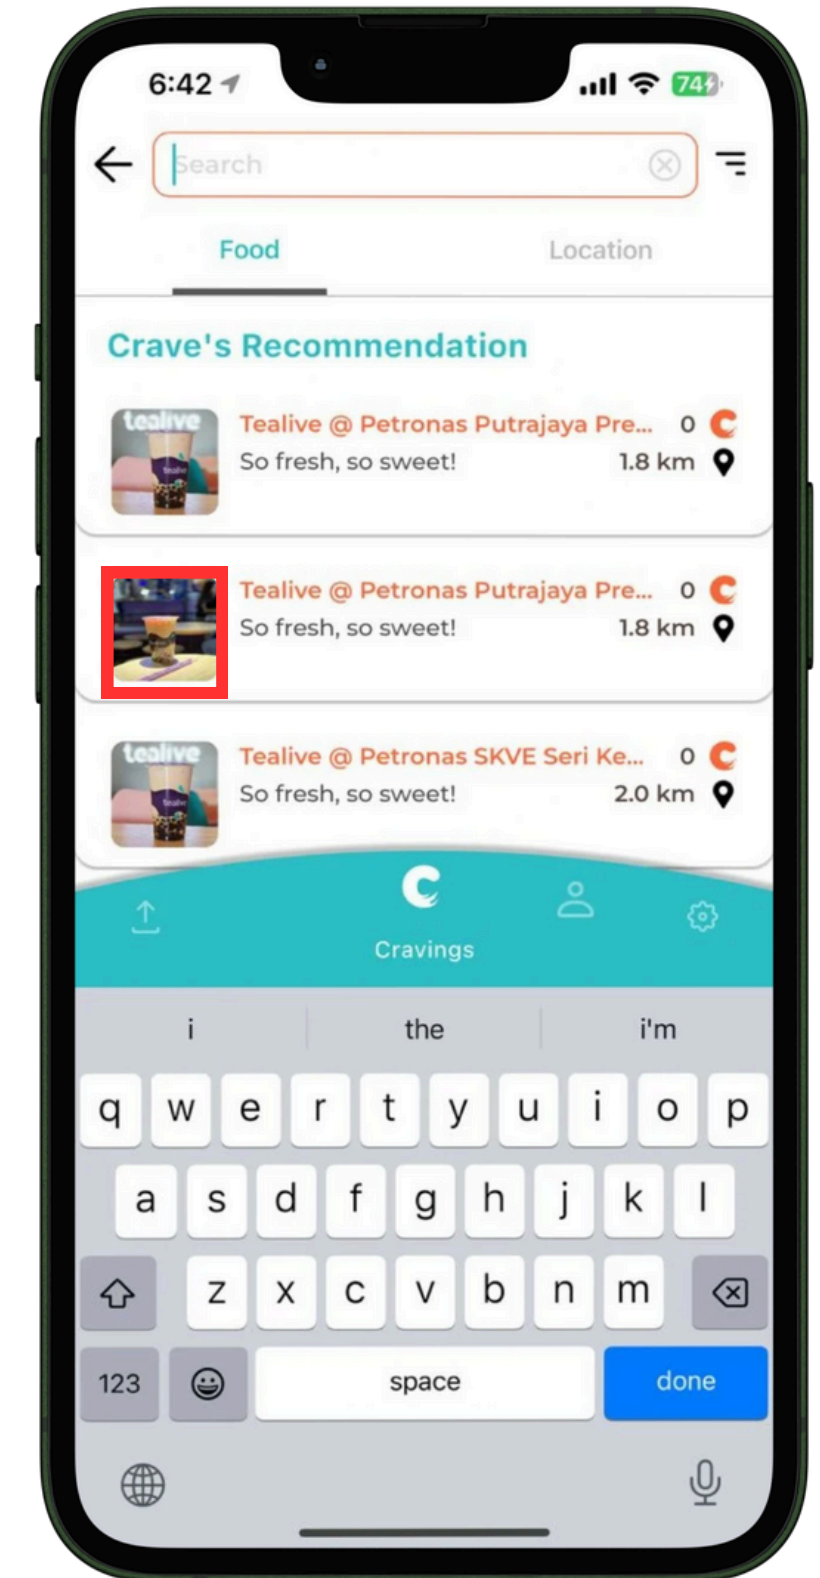

- The menu bar should not appear above the keyboard when opening the search bar.
- It should be at the bottom of the page by default.

Live App

Search Bar

- The pictures at the search bar are distorted.

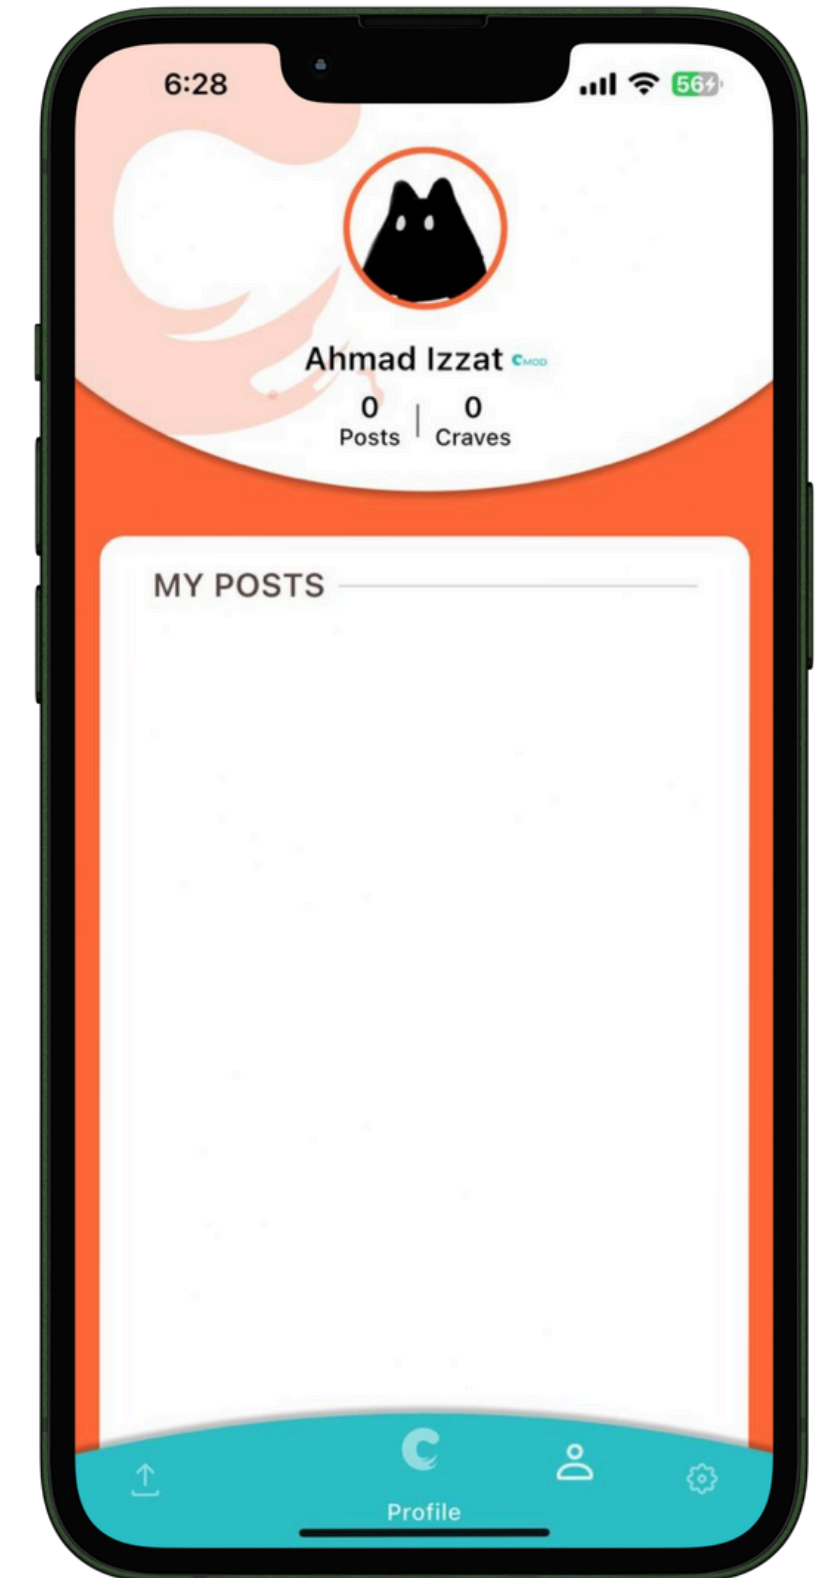

Live App

Posting

Posting

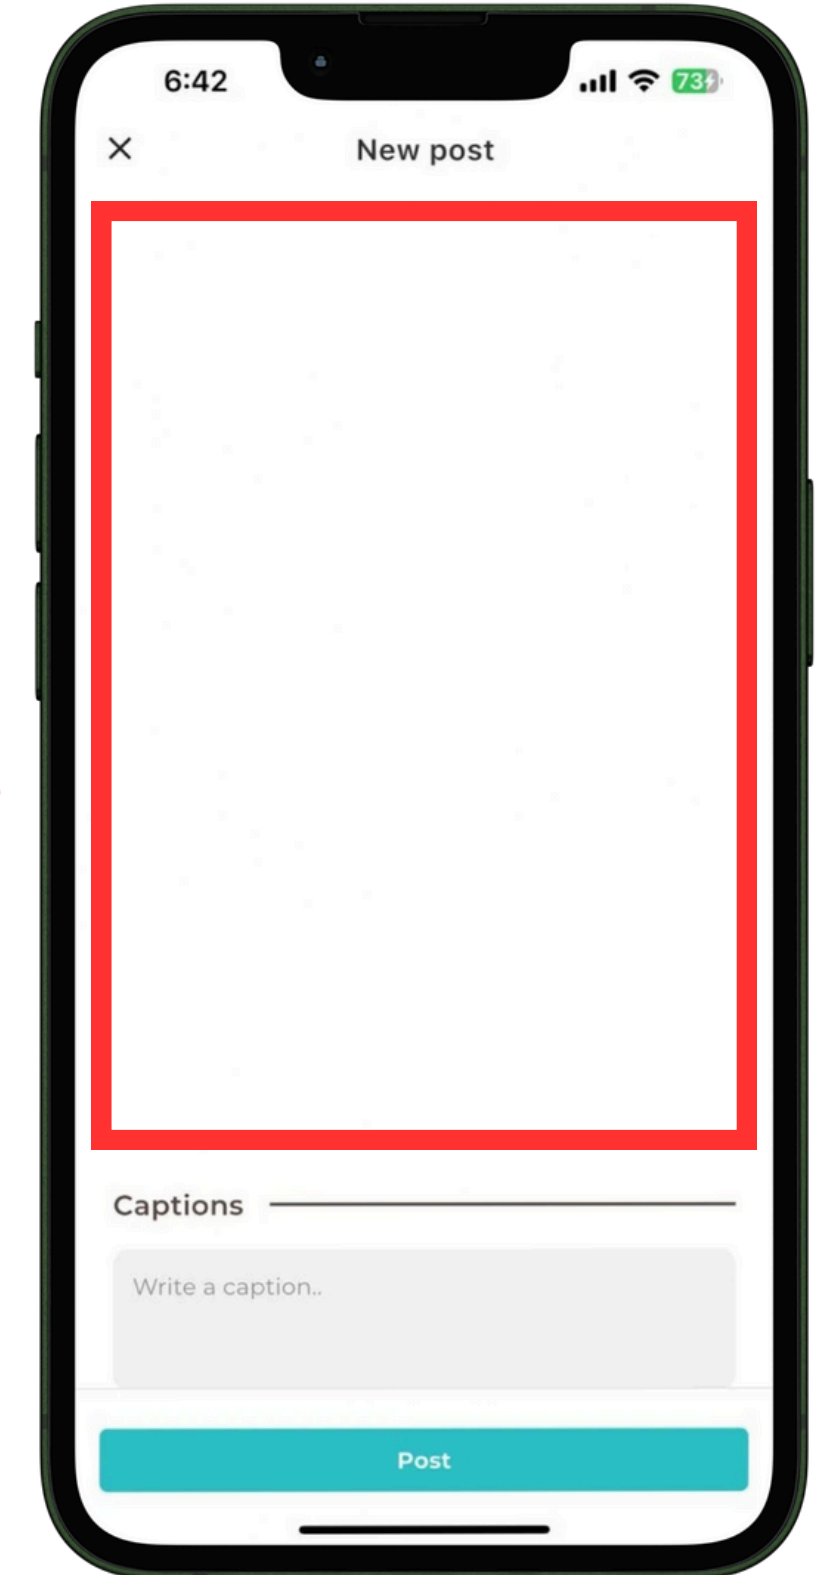

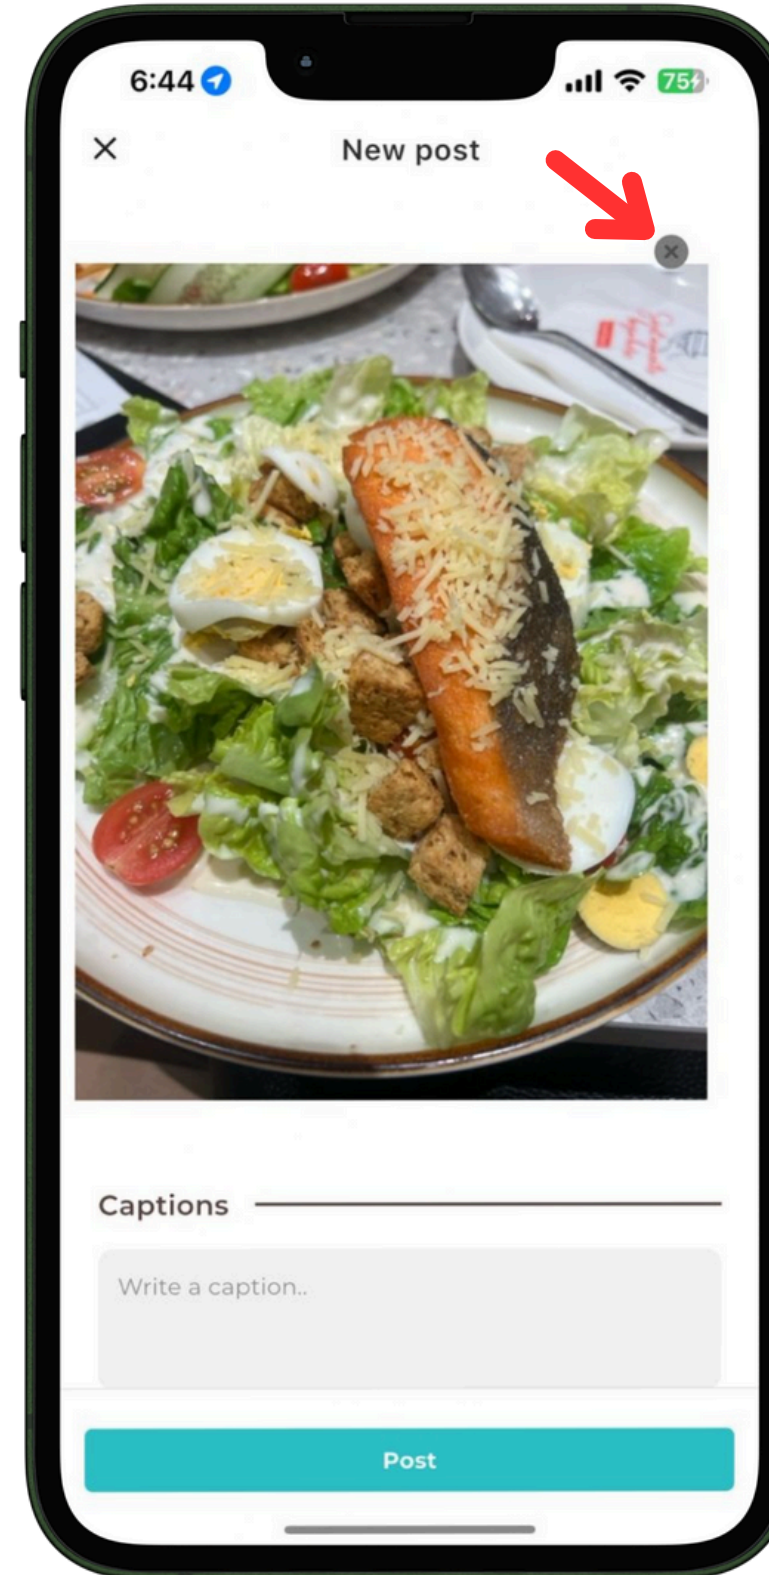

- Post function does not work.
- When posting a picture, there is no update on the profile.

Live App

Posting

- When deleting a photo after selecting it, the page is blank and there is no way to add a photo. There should be a '+' icon to add photos.

Thank you
