

Mobile App Testing Report

28 Dec, 2024

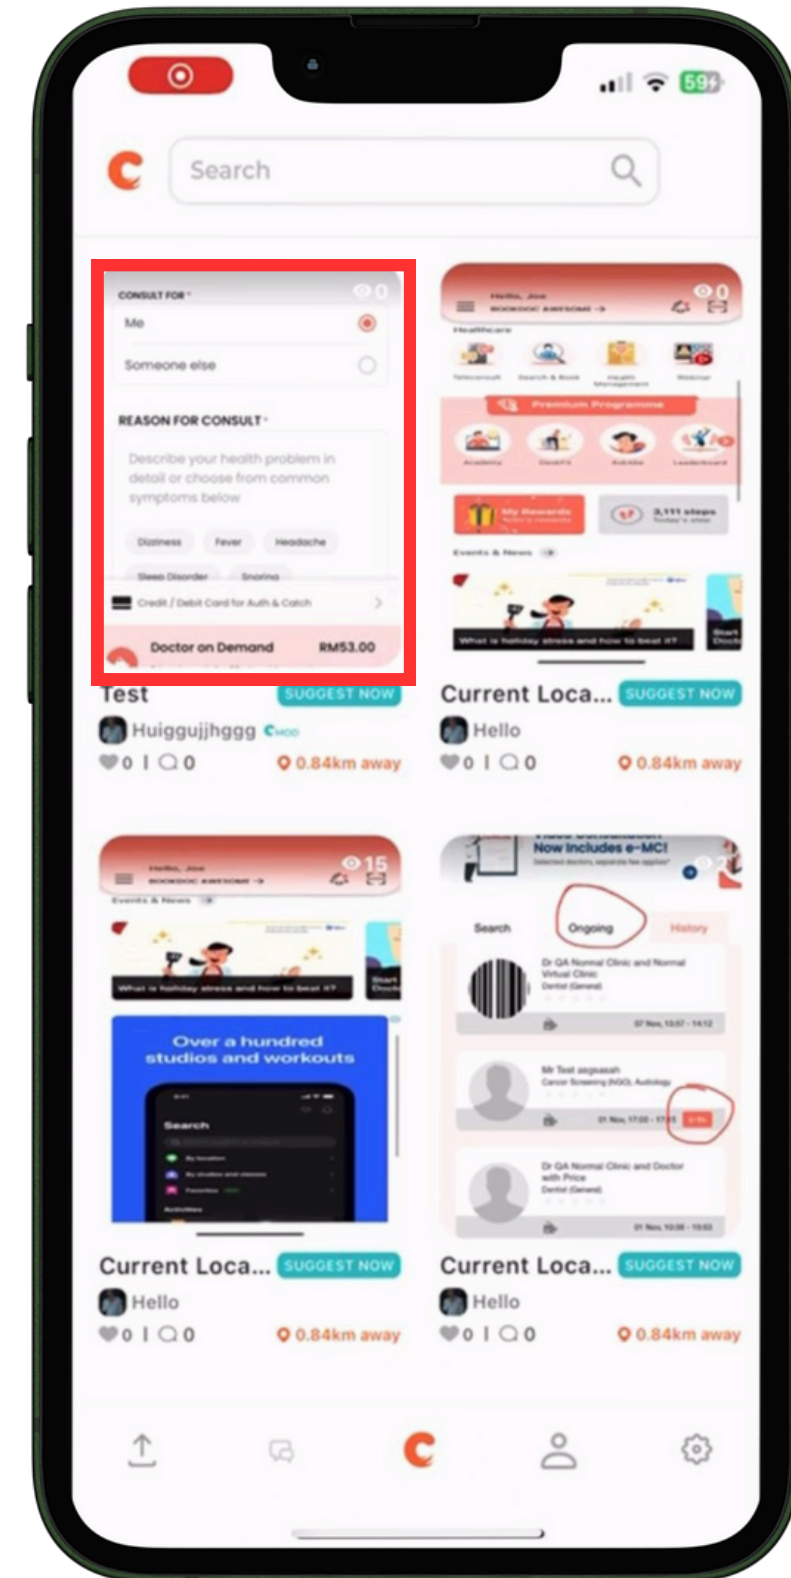

Table of Contents

- **Home Page**
- **Profile**
- **Posting**

Home Page

Home Page

- Videos uploaded on homepage is distorted.
- Instead, zoom the video slightly to fit it into frame instead of stretching it

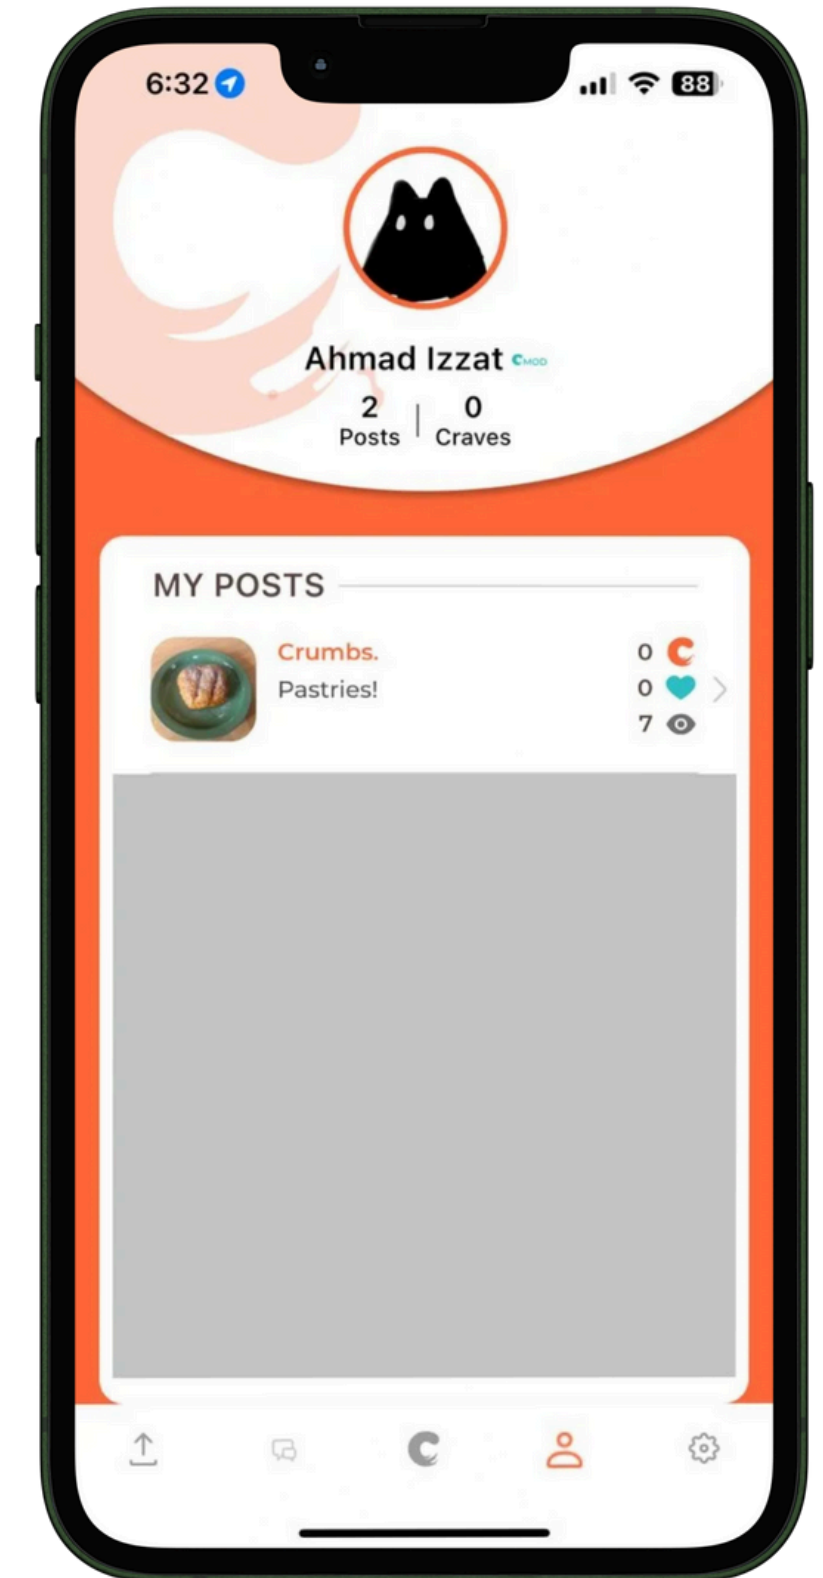

Live App

Profile

Carousel

- There is a grey section when uploading a second post.

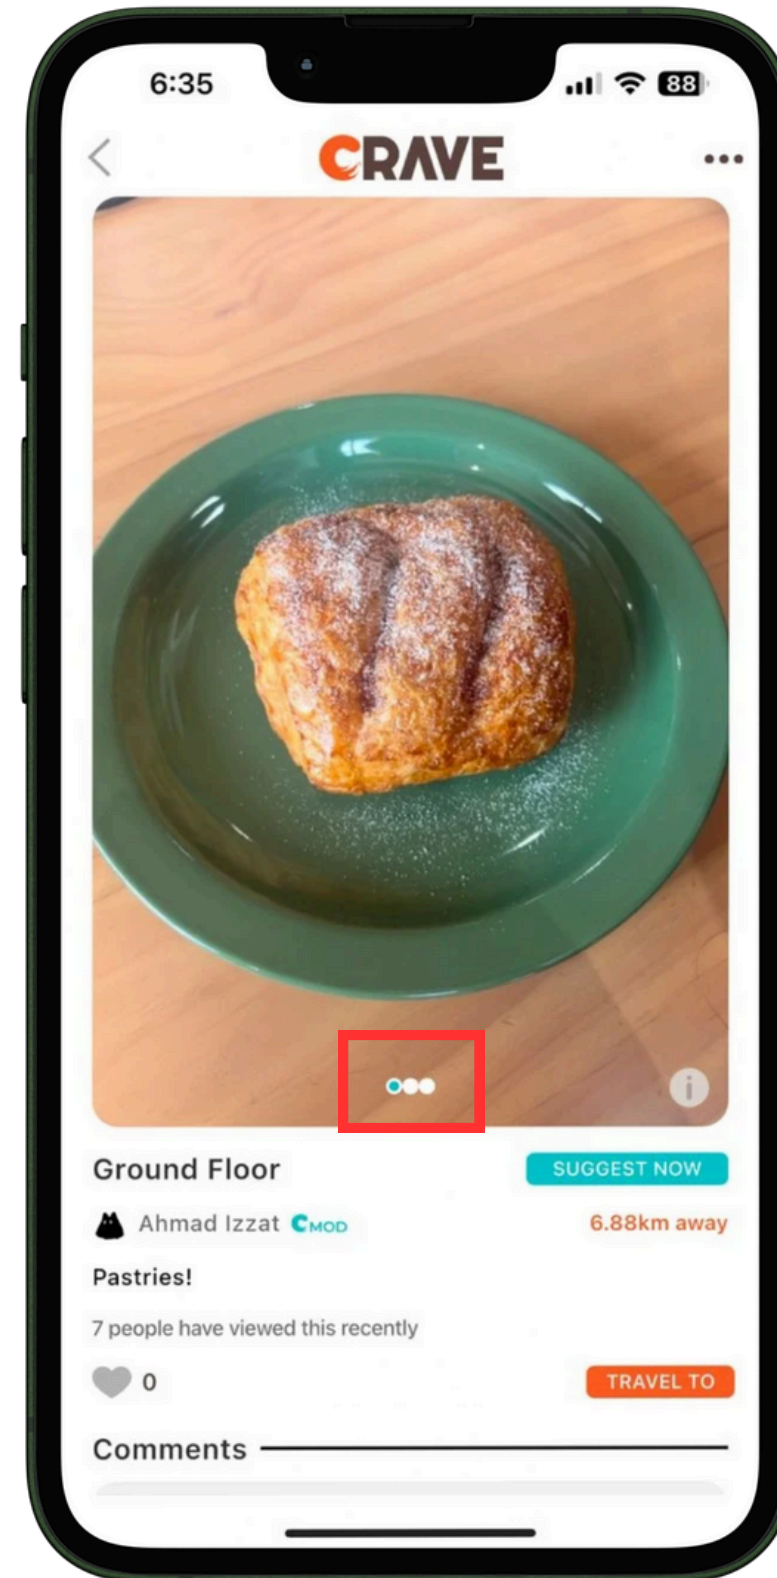

Live App

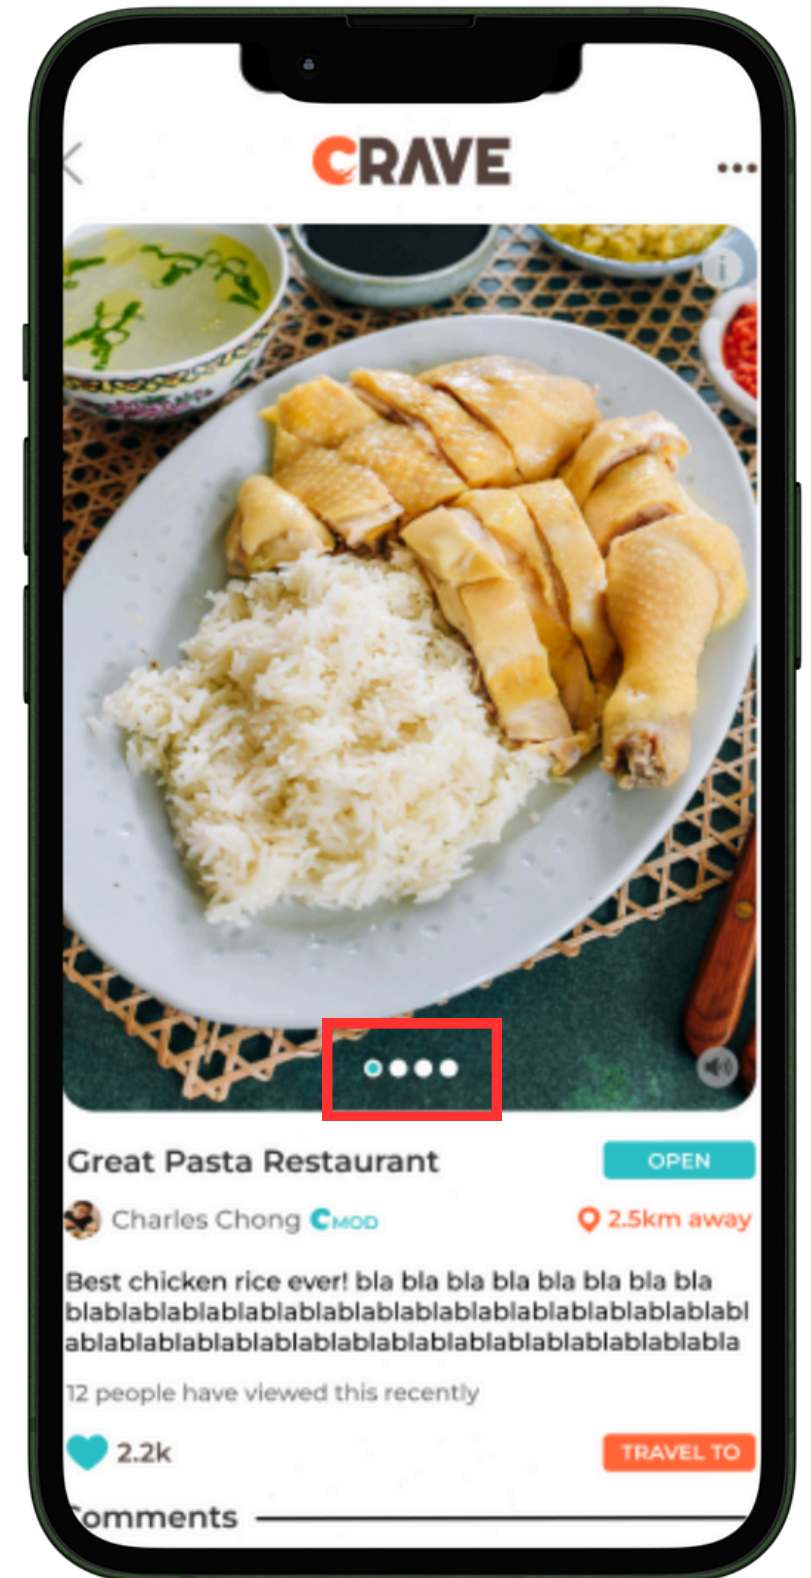

Posting

Posting

- Carousel sliders are too close to each other (the dots when uploading multiple pictures)

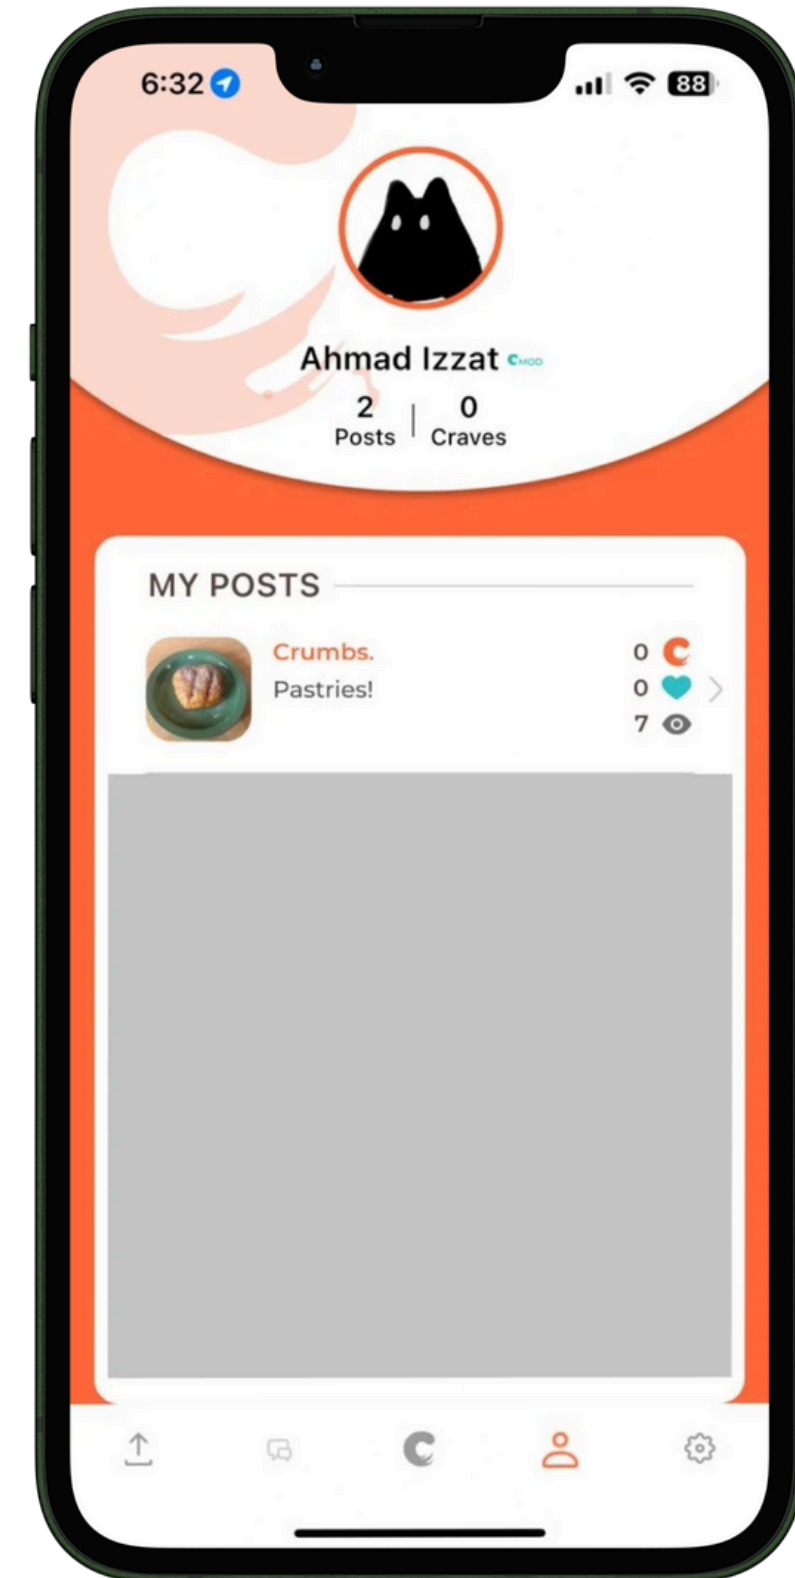

Live App

UI/UX Design

Posting

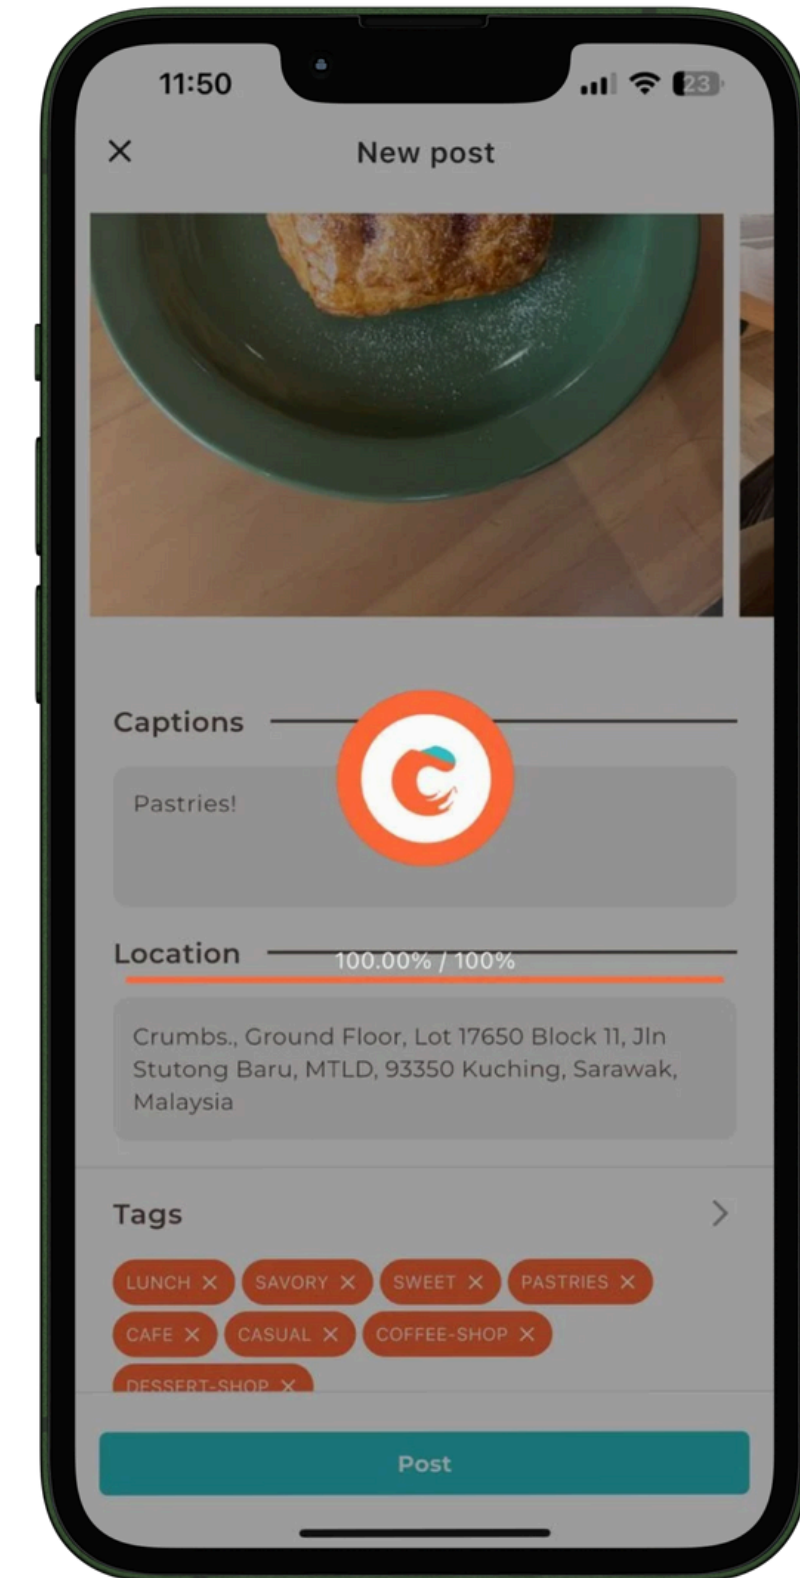

- User profile is not updated immediately after posting (when user is at profile when posting).
- When opening the profile page, and the user uploads photos/videos, the profile page should automatically update/refresh to display the new post.

Live App

Posting

- Remove the loading bar when users are uploading/making a post.

Live App

Thank you
